WHAT IS AZIRONMONGERY?

AZIronmongery is an in-house developed security system brand that plays an intrinsic role in regional security technology. Alliancz International primarily focuses on supplying premium security solutions to our customers at affordable prices, in both commercial and residential projects. At Alliancz International we aim to work cohesively on each project undertaken and provide a customised solution.

WHY CHOOSE AZIRONMONGERY?

Our core brand values are security, dependability and innovation. With an established reputation that stems almost a decade long supplying security systems; AZIronmongery have since become the preferred security system provider among a myriad of prestigious hotel operators and developers.

AZIronmongery select the ideal security system to suit individual project based needs, with a wide variety of products including door stops, handles and additional accessories to compliment.

BENEFITS

- One stop shop for both Ironmongery and door solutions
- Preferred solution
- Suitable for commercial and residential projects
- Value for money packages
- Continual dedication to develop new and innovative solutions
- Customisable designs

AZIRONMONGERY
MORTISE LOCK
CATALOGUE

The mortise lock body is the backbone of door security, it is what combines the cylinder, lock and handle functions into a secure, door locking solution. But of course not one size fits all, so we offer a wide range of mortise lock bodies that provide a wide variety of security at different levels. All of our mortise locks comply with SS:332 fire safety compliance.

AZ 7005/60 NIGHTLATCH

Locks the door upon closing, can be opened from the inside, key required on the outside. Standard dimensions, complete with strike plate (universal for left and right handed doors) and box as standard.

AZ 7003/60 SASHLOCK

Deadbolt and latch incorporated into the same lock case. Latch operated by handle, deadbolt operated by key and/or thumb turn. Can be used with any range of AZ cylinders for a range of locking options.

AZ 7020/60 DEADLOCK

Heavy duty mortise lock for ultimate security. Double throw deadlock withstanding up to 490DaN. Standard Dimensions, complete with strike plate (universal for left and right handed doors) and box as standard.

AZ 3213/60 NIGHTLATCH

Medium size modified to be used for smaller doors such as riser and toilet doors, the smaller size allows it to easily suit any smaller door and smaller cylinders, while also providing the same level of security.

AZ 7521/60 ROLLER LOCK

Roller bolt allowing for even smoother pull and push function when operating door.

Deadlock for maximum security.

AZ 7001/60 PASSAGE LOCK

The passage lock has no deadbolt and does not require a cylinder for any locking, it is always free on both side and simply requires a handle on each side for latch operation.

AZ 7037/60 CLASSROOM

Latch bolt retracted by handle or knob, inside is always free (to escape) however key outside lock & unlock latch). This is perfect for allowing people inside to leave care-free, but provides security by requiring a key to enter. This lock is also sometimes referred to as mechanical time lock as it can convert to a passage mode when required.

AZIRONMONGERY
HINGES
CATALOGUE

Although considered a simple component of any door, the hinge is one of the most important components of all door hardware. A high security door that falls off it's hinges is not very effective, which is why it is so important to choose the right hinge to suit your needs. Factors like door weight, height, core type, function and swing direction all play pivotal roles in deciding which hinge is the right one for the job. And then you can start to consider exposed vs. concealed! If you need any assistance to understand your needs better, please do not hesitate to contact us.

Size: 102X76X2mm 2BB SS Hinge

Finish: Available in SSS, SS304 and SS316. SS332 Standard

Size: 127X89X3mm 2BB SS Hinge

AZIRONMONGERY
CYLINDERS
CATALOGUE

AZIronmongery provides a complete range of cylinders which can be used with our lock bodies and lever handles to make a complete locking set for your door. Our cylinders provide a variety of security levels, as well as varying designs to suit different types of doors.

All cylinders are available in longer lengths up to 110mm (with a 5mm extension on each side), for thicker doors.

AZ 212.70 PRIVACY CYLINDER

Thumb turn inside, coin slot outside. Smooth retraction of deadbolt with active thumb turn in side.

AZ 210.45 SINGLE CYLINDER

Single cylinders only provide access from one side of the door, with the keyhole exposed on the active side. These cylinders are ideal for doors such as closets or risers, when the inside does not require a separate function.

AZ 215.70 THUMBTURN CYLINDER

Key hole outside and thumb turn inside allows maximum security coupled with convenience.

Smooth retraction of deadbolt.

AZ 55/25 OFFSET KEY CYLINDER

Offset cylinder with extended length allows for the cylinder to work even in fire proof or sound proof doors, which are much thicker.

AZ 310.70 DOUBLE CYLINDER

Key required on both sides of cylinder, used on doors with glass panels so if they glass is broken a key is still required,

AZ 26.5MM HALF CYLINDER

Our half cylinder is specially designed for especially thin doors and smaller lock areas. At only 26.5mm it is a single sided cylinder only showing a keyhole on the outside of the door. Perfect for closets and sliding doors.

8MM ESCUTCHEON

The escutcheon provides a flush finish for all Euro profile cylinders, our 8mm escutcheons can be produced in SS304 or SS316, and are perfectly suited to all AZIronmongery cylinders.

Other thicknesses of 4 to 10mm are also available upon request.

AZIRONMONGERY
DOOR
STOPPERS
CATALOGUE

DS632 SN DOME SHAPE DOOR STOP

This ergonomically shaped door stop is perfect for a flush finish on your floor. The rubber pad creates a gentle cushion for your door but provides sturdy resistance if the door is thrown open. Can also be installed on the roof for full length swivel doors.

DH005SS FLOOR MOUNTED DOOR STOPPER

DH005SS is our rubber ring design. The steel pole look gives a polished, industrial design look while it's secure floor mounting provides support for a variety of doors.

DH223 FLOOR STOPPER

A more simplified design than the DH005, the DS223 boasts a large rubber cylinder on a minimalist steel base.

DH022 WALL STOPPER

A simple, sturdy wall stopper which can be installed on any wall surface perpendicular to the door opening. This can be installed either low on the wall or higher depending on the requirements.

DH-024 WALL STOPPER WITH HOOK

This wall stopper comes with a hook for hats, bags, coats and any other hanging items. Perfect for bathroom doors both in private and public use.

DH-038 CONCEALED DOOR STOPPER

Our concealed closer is installed at the top of the door frame rather than the bottom, providing a hidden yet equally effective door stopping method.

047SN MAGNETIC DOOR CLOSER

Magnetic door closers are perfect for areas you wish to keep open for long periods of time.

AZIRONMONGERY
FLUSH BOLTS
CATALOGUE

BFB BOXED TYPE FLUSH BOLT

Flush bolts are used on double leaf timber doors when one door is usually kept inactive, the hinges are located on the outside while the flush bolt is installed on the inside to help hold the door in place. Our flush bolts are available in a range of sizes from 200mm—1000mm, to suit all varieties of doors.

EFB EXTENSION FLUSH BOLT

Extension flush bolts are great for both timber and metal doors. Extension flush bolts range from 300 to 1000mm depending on height of door.

PBS AUTO FLUSH BOLT

Most flush bolts require manual locking and unlocking, however with the auto flush bolt the hard work is done for you. Coming a completely boxed system, the auto flush bolt is the easy way to secure your door with none of the stress.

DUST PROOF SOCKET

The dust proof socket is installed as a set with a flush bolt, it is installed in the floor and acts as the socket for the flush bolt to lock into. The mechanical top lid keeps the socket dust free while not in use, deterring any debris from entering the socket and causing internal damage.

*AZIRONMONGERY
GLASSDOOR
HARDWARE
CATALOGUE*

Glass doors are elegant in their appearance, they brighten up a room by letting in natural light, as well as providing options for engraving and frosting. So why spoil this flush design with bulky, unsightly ironmongery? This range of glass door accessories is secure and reliable, while also providing a flush, attractive look to your door. There are both cylinder and electric locking solutions, providing a variety of security levels perfect for a variety of locations. These fittings are great for residential and office use, providing a touch of glamour to your doorway.

TOP & BOTTOM PATCH FITTING

This simple and minimalist fitting utilizes the top and bottom corners of the glass door panel, creating a flush look that leaves the rest of the door clean and minimalist.

CORNER PATCH LOCK

The corner patch lock can be utilized with the patch fittings on the opposite bottom corner of the door to act as the lock for the door.

ELECTRO-MAGNETIC LOCK

The most popular choice for offices and condominiums, the electro magnetic lock is the perfect security solution for your glass door. Instead of using keys, you can use buttons, scanners, or FOB.

DOOR
ACCESSORIES
CATALOGUE

WL02 SLIDING HOOK LOCK

This special mortise lock body works with all European Profile Cylinders, and is especially effective when used with sliding doors. The lock works with a double throw function, 1st throw activates the bolt, 2nd throw the top and bottom Bolt.

RECT RECESS W THUMBTURN

This recessed handle works perfectly with our sliding door system and hook lock. By providing a rectangular recess that can be used for pushing and pulling the door, and also making this the space for the thumb turn to be used, this one little handle provides many solutions.

BC002 BALL CATCH

Ball Catch hardware is perfect for doors where a latch is not needed or used. Most commonly used on closet doors, the strike plate will be mounted on the outer frame where the ball will catch, holding the door closed.
